

Braces in Charlotte

BRACES

Braces can do much more than give you the most beautiful smile in Charlotte.

Braces Can Give You a Lifetime of Healthy Smiles

Crooked and crowded teeth are hard to clean and maintain. This may lead to tooth decay and eventually gum disease and tooth loss. Other orthodontic problems can cause abnormal wear of tooth surfaces, excess stress on supporting bone and gum tissue, or misalignment of the jaw joints. This can result in chronic headaches or pain in the face or neck. When left untreated, these problems can become worse.

Not only can braces help solve these problems, but braces can cost less than the additional dental care required to treat the more serious problems that can develop in later years. Braces aren't just for kids, either. It's never too late to improve your dental health.

Find a Lifetime of Success with Braces

The need for acceptance is something we never outgrow. An adult or a child who feels unattractive because of crooked teeth or misaligned jaws may become self-conscious and preoccupied with his or her appearance. He or she may cover the mouth when speaking or laughing; hesitate to smile, or attempt to hide his or her profile.

Braces can solve all those problems to improve your looks and self-esteem. Braces can also give you a sense of control because it provides an opportunity to participate in improvement of one's appearance. You might even find an increased self-confidence even before treatment is completed.

Are you a little hesitant about how you will look in your braces? [Invisalign](#) will give you the same benefits of braces with some extra conveniences as well. Your [orthodontic](#) provider will help you decide which option is right for you.
