## DENTAL IMPLANTS

### What Are Dental Implants?

Dental implants replace tooth roots and provide a strong foundation for replacement teeth that are made to match your natural teeth. According to the [ADA website](#), **dental implants provide a patient with more options besides dentures and bridges.** Charlotte Dentistry® recommends them to periodontal patients.

### Advantages of Dental Implants

- ***Dental implants look and feel like your own teeth.*** They are an important tool in [cosmetic dentistry](#).
- Dental implants allow you to speak without the worry that your teeth might slip.
- Because dental implants become part of you they eliminate discomfort from removable dentures.
- Unlike dentures, **dental implants allow you to eat your favorite foods** with confidence and without pain.
- Dental implants can give you back your smile and help you feel better about yourself. They can be an important part of your [smile makeover](#).
- **Dental implants are convenient** as opposed to messy process of removing your dentures and applying adhesives to keep your dentures in place.

### Who Can Get Dental Implants?

**Anyone healthy enough to undergo a routine oral surgery can be considered for a dental implant.** Patients should have healthy

gums and enough bone to hold the implant. They also must be committed to good oral hygiene and regular visits to their general dentist.

**If you are considering dental implants, [contact Charlotte Dentistry®](#) to see if they are right for you.**
