Teen Invisalign® Advantages	Disadvantages of Braces
Teen Invisalign® is hardly noticeable.	Teens can be self-conscious.
Invisalign's® smooth plastic won't pinch or tear your teen's gums or cheeks.	Braces can be painful, with their sharp metal poking and scratching.
With Invisalign® your teen can care for their teeth without any difficulty because they are easily removed.	It can be hard to brush and floss with braces.

Since Invisalign® is removable, your teen doesn't have to worry about damaging anything by what they eat. Invisalign® can be removed for special occasions.

Braces limit the foods they can eat.

Additionally Charlotte Dentistry® offers **24 month, no interest financing on teen Invisalign®.**

## **VIP Diamond Plus Provider for Teen Invisalign®**

Charlotte Dentistry knows you want to give your teen all the best- even if they don't see it right now. Give your teen the confidence that comes with a straight smile and the security they can find in freedom from self-consciousness with Invisalign®. Your teen can have all this without the pain and restrictions from braces.
